

MINI MONSTERS

Our Mini monsters are found in each playground area and eat lunchbox waste. The monsters eat fruit and vegetable waste, cans, bottles, juice boxes and paper. All other waste is fed to the Landfill monster. The students use and maintain the monsters.

WASTE FREE WEDNESDAYS

On Wednesdays we aim for lunchboxes free of single use waste. The Mini Monsters are closed and all rubbish and uneaten food will return home.

Our goal is to have waste free lunchboxes every day. Can you please help us achieve this goal?

RECYCLING HQ

Our community recycling bins are located outside the library. Families are encouraged to recycle the follow items at the HQ:

Plastic bottle tops. Please take the white foam out of milk bottle tops. No metal.

Plastic bread tags. Paper ones can go into your kerbside recycling bin.

Used stationery – pens, pencils, crayons, textas

Batteries – all types of household batteries

COLLECTIVE EFFORT
INVOLVING THE
ENTIRE SCHOOL
COMMUNITY**

ECO COMMANDOS

Our after school sustainability club is an opportunity for year 5 and 6 students to support the school in it's goal for greater environmental responsibility.

The group raises awareness, affects change and encourages positive attitudes and behaviour.

Sorting bottle tops

Faction bottle top mural created by students

MEGS PATCH, GARDEN CENTRE & BUSHLAND CARE

Students have a variety of learning opportunities for hands on application of sustainable practices in our vegetable gardens and bushland.

CONTAINER DEPOSIT SCHEME

Use this code when returning containers so MPS can receive the 10 cents per container refund.

Funds raised are spent on sustainability projects at school.
